

Curriculum Vitae

Position	Software Developer
-----------------	---------------------------

EDUCATION

EDUCATION	
Educational institution	Belarussian State University of Informatics and Radioelectronics
Specialty	Computer systems and technologies
Graduation year	2010
Degree	Bachelor

LANGUAGE SKILLS

LANGUAGES	Level		
	Reading	Writing	Speaking
English	Upper-Intermediate	Upper-Intermediate	Upper-Intermediate
Russian	Native	Native	Native
Belorussian	Native	Native	Native

WORK EXPERIENCE

Total work experience (years)	7
--------------------------------------	---

Project/Project description	App provides tools that help the user create their own custom fantasy basketball team lineups, and tools to utilize vast data and analytics to choose lineups that have a higher probability of winning. These lineups will then be submitted to daily fantasy leagues.
Period of project (since... to...)	2015 - 2016
Position	Lead developer
Responsibilities	Architecture design (new features, existing solutions improvement, refactoring), development, requirements clarifications, communication with customer, team management
Technologies used	Platforms: .Net 4.5, Xamarin, Mobile platforms (iOS, Android) Tools: MS Visual Studio 2013, Xcode, Xamarin Studio, Syncfusion, SQLite, OrionsCloud, Flurry Languages & Technologies: C#.

Project/Project description	Mobile application for exhibitions where beacons (small devices that "stream" some information via Bluetooth) are used. Collects information about visitor's location changes between exhibition stands to determine stand popularity. Includes game using beacon data to entertain visitors.
Period of project (since... to...)	2015
Position	Developer
Responsibilities	Architecture design (new features, existing solutions improvement, refactoring), development, requirements clarifications, communication with customer, team management
Technologies used	Platforms: .Net 4.5, Xamarin, Mobile platforms (iOS, Android, WindowsPhone 8/8.1) Tools: MS Visual Studio 2013, Xcode, Xamarin Studio Languages & Technologies: C#.

Project/Project description	Application for office buildings. Allows meeting rooms booking, provides the latest news about the building, location of the building and route to it, nearest restaurants, shops, parkings, etc. Gives an opportunity to submit support cases and register visitors for building workers.
Period of project (since... to...)	2015
Position	Developer
Responsibilities	Architecture design (new features, existing solutions

	improvement, refactoring), development
Technologies used	Platforms: .Net 4.5, Xamarin, Mobile platforms (iOS, Android, Windows Phone 8/8.1) Tools: MS Visual Studio 2013, Xcode, Xamarin Studio Languages & Technologies: C#.

Project/Project description	B2B and B2C robust reporting and hospitality management solution for restaurants. Features include POS integration, web and mobile application.
Period of project (since... to...)	2014 - 2015
Position	Developer
Responsibilities	Architecture design (new features, existing solutions improvement, refactoring), development, automation testing
Technologies used	Platforms: .Net 4.5, Xamarin, Mobile platforms (iOS, Android, WindowsPhone 8/8.1) Tools: MS Visual Studio 2012, Xcode, Xamarin Studio, SQL, Server Management Studio, Specflow Languages & Technologies: C#, SQL, HTML, Gherkin language (testing automation).

Project/Project description	Mobile application that enables users to access, view and manage files on Cloud storage, share files easily with a link, collaborate in folders with other users, upload photos and videos, secure content with encryption.
Period of project (since... to...)	2014
Position	Developer
Responsibilities	Architecture design (new features, existing solutions improvement, refactoring), development
Technologies used	Platforms: .Net 4.5, Xamarin, Mobile platforms (iOS, Android, Windows Phone 7/8/8.1) Tools: MS Visual Studio 2012, Xcode, Xamarin Studio Languages & Technologies: C#, WebDAV.

Project/Project description	Mobile application for Active Directory contacts management and synchronization with mobile phone address book.
Period of project (since... to...)	2014
Position	Developer
Responsibilities	Server side development, integration with server side, new features implementation, bug fixing
Technologies used	Platforms: .Net 4.5, Xamarin, Windows Phone SDK Tools: Web API, LDAP Languages & Technologies: C#, ASP.NET MVC 5

Project/Project description	Mobile application for merchants to retrieve up-to-
------------------------------------	---

	date information about sales, payments, clients count for each trading location.
Period of project (since... to...)	2014
Position	Developer
Responsibilities	Architecture design (new features, existing solutions improvement, refactoring), development
Technologies used	Platforms: .Net 4.5, Xamarin, Mobile platforms (iOS, Android) Tools: MS Visual Studio 2012, Xcode, Xamarin Studio Languages & Technologies: C#.

Project/Project description	Mobile application for valets to register new cars, receive notifications from car owners, keep history of car pick-ups.
Period of project (since... to...)	2014
Position	Developer
Responsibilities	Architecture design (new features, existing solutions improvement, refactoring), development
Technologies used	Platforms: .Net 4.5, Xamarin, Mobile platforms (iOS, Android, Windows Phone 8/8.1) Tools: MS Visual Studio 2012, Xcode, Xamarin Studio Languages & Technologies: C#, Objective C.

Project/Project description	User-friendly client side for the existing product for e-mail migration.
Period of project (since... to...)	2013
Position	Developer
Responsibilities	Technical specifications development (change requests technical specifications, UML models development for future and existing functionality); automated tests development, running and reporting (core architecture design, business logic implementation); product development (unit tests, complex UI forms refactoring, client side UI optimization, database scripts and updates); architecture design (new features architecture, existing solutions improvements, refactoring); performance optimization.
Technologies used	Platforms: .Net 4.5 Tools: MS Visual Studio 2012, MS SQL Server 2012, Atlassian JIRA, Subversion, Araxis Merge Languages & Technologies: C#, ASP.NET MVC, JavaScript, JQuery.

Project/Project description	The product helps to aggregate PST-filed data into a centralized location allowing be merged easily and simply into destination systems like Exchange, as well as bring the data under control of Exchange data management.
------------------------------------	---

Period of project (since... to...)	2009-2012
Position	Developer
Responsibilities	Technical specifications development (change requests technical specifications, UML models development for future and existing functionality); automated tests development, running and reporting (core architecture design, business logic implementation); product development (unit tests, front-end development, database scripts and updates); architecture design (new features architecture, existing solutions improvements, refactoring); performance optimization.
Technologies used	Platforms: .Net 4.0 Tools: MS Visual Studio 2010, MS SQL Server 2005, Atlassian JIRA, Subversion, MFCMAPI, Araxis Merge, NUnit Languages & Technologies: C#, WCF, Entity Framework, Enterprise Library 5.0, ASP.NET MVC, JavaScript, JQuery.

Project/Project description	The product receives auto number from scanning web camera, stores it in database and then forwards it to another computer. Allows user to set number expiration and check it when number comes.
Period of project (since... to...)	2009
Position	Developer
Responsibilities	Product development (UI forms design and implementation, database scripts and updates, new solutions investigation and development, changes integration into existing system); architecture design (new features architecture, existing solutions improvements, refactoring); performance optimization.
Technologies used	Platforms: .Net 3.5 Tools: MS Visual Studio 2008, Atlassian JIRA, Subversion Languages & Technologies: C#, WPF.

Project/Project description	Extension for previous product. Allows managing locations, adding and removing organizations, employee accounts.
Period of project (since... to...)	2009
Position	Developer
Responsibilities	Bug fixing, database scripts and updates, changing integration into existing system, Existing solutions improvement, front-end development, refactoring.
Technologies used	Platforms: .Net 3.5 Tools: MS Visual Studio 2008, MS SQL Server 2005, MSTest, Atlassian JIRA, Subversion Languages & Technologies: C#, WCF, ASP.NET MVC, JavaScript, JQuery.

Project/Project description	The product helps kindergarten employees to organize their work. It represents a chart (similar to Gantt chart) and a table displaying how working time was divided between activities.
Period of project (since... to...)	2008
Position	Developer
Responsibilities	UI forms design and implementation, database scripts and updates, new solutions investigation and development, changing integration into existing system
Technologies used	Platforms: .Net 3.5 Tools: MS Visual Studio 2010, IIS 6.0, MS SQL Server 2005, Atlassian JIRA, Subversion Languages & Technologies: C#, WCF, WPF.

Project/Project description	Interactive room for company presentation. User could view certificates at walls, "read" books about company services, watch videos by virtual TV (video streaming) and presentations at screen.
Period of project (since... to...)	2008
Position	Developer
Responsibilities	UI forms design and implementation, configuration file processing, plug-ins management, client side UI optimization
Technologies used	Platforms: .Net 2.0 Tools: MS Visual Studio 2008, Atlassian JIRA, Subversion Languages & Technologies: C#, Silverlight 2, WCF.

SKILLS MATRIX

PROFESSIONAL SKILLS	Experience, in years	Level (Expert/ Advanced/ Intern/Novice)	Last used, year
<u>Operating Systems</u>			
MS Windows	12	Advanced	2016
Linux (Ubuntu)	1	Novice	2010
Windows Phone	2	Advanced	2015
Apple iOS	2	Advanced	2016
Android	2	Advanced	2016
<u>Programming Languages</u>			
C#	7	Advanced	2016
JavaScript	3	Intern	2015
HTML/DHTML	3	Intern	2015
SQL	6	Advanced	2016
<u>Project Management / CVS Tools</u>			
Jira	6	Advanced	2016
<u>Technologies</u>			
.Net platform	7	Expert	2016
WPF	6	Expert	2015
WCF	6	Intern	2015
ASP.NET MVC	2	Novice	2015
JQuery	1	Novice	2015
Multi-tier	5	Advanced	2016
UML (Enterprise Architect)	4	Advanced	2016
Xamarin	2	Advanced	2016
<u>DBMS</u>			
MS SQL Server (2000, 2005, 2008, 2012)	6	Advanced	2015
SQLite	1	Novice	2016

PROFESSIONAL SKILLS	Experience, in years	Level (Expert/ Advanced/ Intern/Novice)	Last used, year
<u>Other Skills</u>			
Agile/Scrum	2	Intern	2015
Project documentation	4	Advanced	2015
OOP/OOA	7	Advanced	2015
Software Architecture Design	5	Intern	2016
Database Architecture	3	Intern	2015
