

Curriculum Vitae

Position	iOS developer
-----------------	----------------------

EDUCATION

EDUCATION	
Educational institution	Belarusian State University
Specialty	Faculty of Applied Mathematics and Computer Science
Graduation year	2009
Degree	Bachelor

LANGUAGE SKILLS

LANGUAGES	Level		
	Reading	Writing	Speaking
English	Upper-Intermediate	Upper-Intermediate	Upper-Intermediate
Russian	Native	Native	Native
Belarusian	Native	Native	Native

WORK EXPERIENCE

Total work experience (years)	7
--------------------------------------	----------

Project/Project description	Secure application container with apps like browser, mail, file sharing, calendar, contacts. All incoming/outgoing traffic is encrypted and are send via bridge.
Period of project (since... to...)	October 2014 - now
Position	iOS developer
Responsibilities	Application development
Technologies used	ObjectiveC, MySQL

Project/Project description	Application that allows to receive discounted and promoted products from online shops.
Period of project (since... to...)	September 2014 – October 2014
Position	iOS developer
Responsibilities	Application development.
Technologies used	ObjectiveC, MySQL

Project/Project description	Application for the company's employees. Allows you to receive news, information about discounts and bonuses for employees, etc.
Period of project (since... to...)	September 2014 – October 2014
Position	iOS developer
Responsibilities	Application development.
Technologies used	ObjectiveC, SQLite

Project/Project description	Cloud storage for data. Allows you to store files on a remote server. Has a variety of tools for easy data access. Analogue of Dropbox.
Period of project (since... to...)	August 2014 – September 2014
Position	Mac OS developer
Responsibilities	Application development

Technologies used	ObjectiveC, FUSE
-------------------	------------------

Project/Project description	Application for the company's employees. Allows you to receive news, information about discounts and bonuses for employees, etc.
Period of project (since... to...)	June 2014- August 2014
Position	iOS Developer
Responsibilities	Application development.
Technologies used	ObjectiveC

Project/Project description	Utility for collecting logs from different switches that allows to search through logs. For processing huge amount of data KyotoCabinet, MongoDB with tricky synch process is used.
Period of project (since... to...)	January 2014 – July 2014
Position	Java developer, application, database architect.
Responsibilities	Implementation Search utility that will be able to handle approximately 10-20 mln records per day and provide possibility to search by different criteria.
Technologies used	J2EE, Sockets, MongoDB, KyotoCabinet, MySQL.

Project/Project description	Application for scanning/handling QR, watermark, barcode coupons.
Period of project (since... to...)	December 2013 – January 2014
Position	IOS Developer
Responsibilities	Application development.
Technologies used	Objective C, SQLite

Project/Project description	Call billing system. Accumulating syslog from switches, parsing logs, rating calls, generating invoices.
Period of project (since... to...)	2013 – July 2014
Position	Java developer, database administrator.
Responsibilities	Customer communication, code refactoring, optimization rating process, bug fixing, database normalization, changing database setting in order to improve speed, monitoring system optimization.
Technologies used	J2EE(Glassfish, Beans), Sockets, Threads, MySQL, Kyoto Cabinet, PerconaDB, PHP

Project/Project description	Application for scanning bags
Period of project (since... to...)	November 2013 – 14 December 2013
Position	iOS developer
Responsibilities	Development iOS application for scanning bags.
Technologies used	iOS (ObjectiveC), OpenCV

Project/Project description	Application for tennis fans
Period of project (since... to...)	October 2010 – July 2011
Position	iOS developer, Java WebService developer.
Responsibilities	iOS application development, WebService development, tech support during Australian open.
Technologies used	iOS, J2EE, SOAP, MySQL

Project/Project description	MobileTV iOS app
Period of project (since... to...)	November 2010 - September 2011
Position	iOS developer
Responsibilities	iOS app development (as a part of a team: 2 developers)
Technologies used	iOS

Project/Project description	Tower Defence game
Period of project (since... to...)	2012
Position	iOS Developer
Responsibilities	Customer communication, iOS app development.
Technologies used	iOS, google maps, A* search algorithm.

Project/Project description	iOS game (runner)
Period of project (since... to...)	2012
Position	iOS developer
Responsibilities	Customer communication, iOS app development.

Technologies used	IOS, Google Maps, GameCenter, PushNotifications

Project/Project description	Application for generating music
Period of project (since... to...)	2012
Position	Android developer
Responsibilities	Bug fixing, new featches implementation: refactoring chord drawing, reconnect to the server, ping server, etc
Technologies used	Android

Project/Project description	The engine for arbitrage betting
Period of project (since... to...)	2010-2012
Position	QT developer
Responsibilities	Service implementation for grabbing information from betting markets and bookmakers and detecting arbitrage (Server side). Implementing MAC OS application as client, that allows to see all cases and provide quick access to the required bookmakers, balance account management.
Technologies used	QT, PHP, JavaScript, MySQL, AJAX

SKILLS MATRIX

PROFESSIONAL SKILLS	Experience, in years	Level (Expert/ Advanced/ Intern/Novice)	Last used, year
<u>Operating Systems</u>			
MS Windows	14	Advanced	2014
Linux (Debian, CentOS)	6	Advanced	2016
MAC OS	6	Expert	2016
<u>Programming Languages</u>			
ObjectiveC	6	Expert	2016
Java, J2EE	7	Advanced	2016
JavaScript	5	Intern	2013
HTML, AJAX	6	Advanced	2013
PHP	4	Intern	2013
SQL	7	Expert	2016
QT	2	Advanced	2013
<u>Project Management / CVS Tools</u>			
Jira	6	Advanced	2016
Git, SVN	7	Advanced	2016
<u>Technologies</u>			
iOS platform	7	Expert	2016
J2EE	5	Intern	2014
PHP, HTML, AJAX, JavaScript	7	Advanced	2013
Google App Engine	1	Advanced	2012
UML (Rational Rose)	2	Intern	2010
<u>DBMS</u>			
MS SQL Server	7	Expert	2016
Oracle	4	Intern	2010
SQLite	6	Expert	2015
Kyoto Cabinet	1	Intern	2014
MongoDB	2	Intern	2015
PerconaDB	2	Intern	2014

PROFESSIONAL SKILLS	Experience, in years	Level (Expert/ Advanced/ Intern/Novice)	Last used, year
<u>Other Skills</u>			
Software Architecture Design	5	Advanced	2016
Database Architecture	5	Advanced	2016
