

How R U? app - all-in-one tool for handling major HR issues

A totally innovative all-in-one tool for handling major HR issues. It makes communication between the administrative body and employees easier, helps build a successful team and encourages smooth on-boarding.

Project type: mobile app, web

InToSoft team: 4 specialists

Team structure: 2 Xamarin/.Net developers, QA specialist, BA

Project duration: 6 months

Technologies: Xamarin

Platforms: iOS, Android, Windows Phone, web

Challenge

The main challenge for InToSoft team was to create urgently a stable system that would save our HR Managers' time and efforts due to instant employee inflow to the company.

Project

As a result of InToSoft company received an extremely iseful system that:

- automates a lot of HR processes within the company;
- increases staff's involvement into corporate life;
- helps to keep corporate culture up;
- speeds up adaptation of new employees;
- allows to use creative approach to personnel assessment;
- helps to track employee's mood and satisfaction;
- makes company staff's life easier.
