WORK EXPERIENCE

Total work experience (years)	9
Period	2015-…
Role	Lead Developer
Environment	C# .Net 4.5, Asp.Net MVC 4, Angular, Web API, LINQ, JavaScript, jQuery, HTML, LESS/CSS, MS SQL 2012, Entity Framework 6, Xamarin, Xamarin Forms, etc.
Project information	Corporate application for HRs and employees of a company designed to simplify communication between employees and common routines. Includes: help desk, corporate calendar, corporate notifications, employee mood tracking system, corporate address book, survey mechanism, etc.
Responsibilities	New features implementation, bug fixing, new solutions investigation, team management, estimation,
Amount of people on the project	2-4

Period	2014-2015
Role	Team Lead
Environment	C#, WindowsPhone 8/8.1, Xamarin.Forms
Project information	Application for car parker activities management on mobile devices.
Responsibilities	Architecture design, documentation, specification, new features implementation, bug fixing, new solutions investigation, team management, estimation, requirements clarification with customer.
Amount of people on the project	2-4

Period	2014-2015
Role	Tech Lead
Environment	C#, WindowsPhone 8/8.1, Xamarin.Forms
Project information	Application for building facilities presentation and management (meeting room booking, restaurant menu, services notifications etc.)
Responsibilities	Architecture design, documentation, specification, new solutions investigation, code review, team management, estimation, requirements clarification with customer.

Amount of people on the project	2-4

Period	2014-2015
Role	Team Lead
Environment	C#, Windows Phone 7/8/8.1, Xamarin.Forms, .Net 4.5, ASP.NET MVC 5
Project information	Cloud file sync tool for Mobile devices (Windows phone)
Responsibilities	Architecture design, documentation, specification, new features implementation, bug fixing, code review, new solutions investigation, customer support, team management, estimation, requirements clarification with customer.
Amount of people on the project	2-4

Period	2014-2015
Role	Team Lead
Environment	C#, WPF, WCF, ASP.NET, WebDAV, ELDOS file system driver
Project information	Cloud file sync tool for Windows.
Responsibilities	Architecture design, documentation, specification, new features implementation, bug fixing, code review, new solutions investigation, customer support, team management, estimation, requirements clarification with customer.
Amount of people on the project	3

Period	March 2014
Role	Lead Developer
Environment	C#, WindowsPhone 8, Xamarin, ASP.NET MVC 5, Web API, LDAP
Project information	Mobile application for Active Directory contacts management and synchronization with mobile phone address book
Responsibilities	Application architecture design, integration with server side, documentation, specification, new features implementation, bug fixing, code review.

Period	February 2014
Role	Lead Developer
Environment	C#, Windows Phone SDK
Project information	Notification system
Responsibilities	Architecture design, new features implementation, bug fixing, new solutions investigation, customer support, estimation, requirements clarification with customer.

Period	2013-2014
Role	Team Lead
Environment	C#, ASP.NET MVC , JavaScript, JQuery
Project information	B2B and B2C robust reporting and hospitality management solution for restaurants. Features include POS integration, web and mobile application.
Responsibilities	Architecture design, integration with server side, documentation, specification, new features implementation, bug fixing, code review, new solutions investigation, customer support, team management.
Amount of people on the project	5

Period	2009-2013
Role	Lead developer/Team Lead
Environment	C#, WCF, Entity Framework, Enterprise Library 5.0, ASP.NET, JavaScript, JQuery
Project information	Email archives migration tool
Responsibilities	Architecture design, new features implementation, bug fixing, code review, new solutions investigation, customer support.
Amount of people on the project	15

Period	2009
Role	Developer
Environment	C#, MS SQL
Project information	CRM system

Responsibilities	New features implementation, bug fixing
Amount of people on the project	5

Period	2009
Role	Developer
Environment	C#(WCF, XBAP), MS SQL reporting services
Project information	XBAP application for personnel activities management
Responsibilities	New features implementation, bug fixing, performance optimization, reports design
Amount of people on the project	10

Period	2008
Role	Lead Developer
Environment	C#(WCF), MFiles API
Project information	WCF service for MFiles vault management
Responsibilities	Architecture design, new features implementation, bug fixing
Amount of people on the project	3

Period	2007
Role	Developer
Environment	VB.NET, SQL server, Citrix
Project information	CRM tool for drugs production management
Responsibilities	New features implementation, bug fixing
Amount of people on the project	13

Period	2006-2007
Role	Developer
Environment	VB 6.5, VB.NET, C#, NSIS script, Redemption
Project information	Tool to synchronize CRM with Outlook

Responsibilities	New features implementation, bug fixing, installer development, refactoring
Amount of people on the project	5
